Shingletow , Northern Type, in bales, about 100 pounds per bale.....	.85

A full line of nursery supplies.

APPLE SEEDLINGS—Washington Grown

Note the strong grades. Thrifty, vigorous Seedlings are essential for profitable production.

FRUIT TREE STOCKS—American Grown

We specialize in growing and distributing fruit tree stocks, maintaining an extensive plant in the State of Washington and are growing a limited quantity of apple seedlings in the Topeka, Kansas, district.

We have been engaged in the seedling business for over 50 years and know how to grow and handle them. Our seedlings are kept well sprayed during the growing season; are healthy, thrifty and not dug until well ripened. Our many satisfied customers are proof our seedlings will give satisfaction.

In order to insure our customers and ourselves a supply of seedlings of high quality, five years ago we established our own growing plant in the Northwest and which is under our direct control and management. A capable seedling grower of many years experience is in charge. At this time we probably have the largest seedling growing plant in the United States, and we definitely know our seedlings are well grown, carefully handled, and properly stored. By having our own plant, not depending on contracts with various growers, we are able to guarantee our customers 100% delivery on orders with seedlings that we know will give satisfaction.

WESTERN GROWN—Our experience has demonstrated that due to favorable climatic conditions western seedlings are superior for planting. We are using all western grown fruit tree stocks for our own grafting and budding, securing splendid results.

FUTURE ORDERS—We are always glad to quote prices and book advance orders.

GRADES—We make strong grades that please our customers.

PRICES—Are for shipment from Shenandoah, subject to our usual terms and to change without notice. We also are able to make shipments direct from our growing plant, if desired, and to offer our Eastern customers delivery in car lots to various points.

QUALITY PAYS DIVIDENDS

Our Seedlings are the best we have ever grown. Will be dug only when well ripened, graded right, and handled in the very best possible manner. Inferior Seedlings are expensive. Samples free.

APPLE GRAFTS

We will be pleased to submit prices on Apple Grafts, either piece or whole root, upon application.

DECIDUOUS TREES and ORNAMENTAL SEEDLINGS

Our seedlings are graded not only by height but particular attention is given to caliper, which insures a strong grade.

Tied 3-4 ft. and up, 25; 2-3 ft., 50; 18-24 and smaller, 100 per bundle.

ROSES

Growing and distributing Roses of best quality is one of our specialties.

We will have a splendid assortment of Northern California grown roses for Winter and Spring shipment. These roses have been carefully grown; well sprayed during the growing season and dug only when well matured. All roses are carefully graded at Shenandoah under our personal supervision and with our exceptional storage facilities for the storing and handling of roses, we are in a position to supply first class plants which give satisfaction.
